REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Allowance of claims 1-8 is indicated because none of the prior art of record teaches an apparatus for evaporative cooling having a vacuum chamber comprising a second chamber concentrically surrounding a first chamber, the first chamber having an upper part located inside the vacuum chamber and a lower part located beneath the vacuum chamber and extending downwards below a bottom wall of the vacuum chamber so that the length of the lower part below the bottom wall is at least the same as the length of the upper part inside the vacuum chamber, and a coolant conduit positioned inside the lower part of the first chamber for delivering coolant. Including the conduit inside the lower part of the first chamber serves the benefit of preventing splash of coolant outside of the first chamber into the second chamber and furthermore prevents significant temperature influence on the boundary between the first and second chambers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LINDSEY C. TEATERS whose telephone number is 571-270-5913. The examiner can normally be reached on Mon-Thur 8:30am-6:00pm :: alternating Fri 8:30am-4:00pm.
